What Is Going On Tonight.
High Cost of Living Moves Physicians to Raise Prices—Undertakers May Follow Suit.

The Willimantic physicians have deemed it necessary to raise their fees for medical and surgical services in this city and vicinity. The cost of living has gone up and the cost of being sick likewise is raised. The undertakers are said to be contemplating making it more expensive in the future to die and be buried. The table of fees, which goes into effect August 1, 1911, is as follows: Office visits, \$1; house visits within the city limits, \$1.50; additional patients in the same family, \$1; calls received and made between the hours of 10 p. m. and 7 a. m., double fee; consultations, \$5; X-ray examinations, \$2; for traveling fee per mile, 50 cents; in case of visits by railroad or trolley the traveling fee may be reckoned according to the time saved the practitioner; extra detention per hour, \$2; obstetrical cases, \$15; instrumental, complicated or protracted cases, \$20; surgical cases, \$25; temporary; obstetrical consultations \$10; administration of anesthetics \$5 and upwards; all medicines, extra charges; filling blanks for deaths, accidents or health claims, \$1; charge will be made for telephone advice; urine examination \$1.

The physicians, after adopting this schedule of fees, agreed that these rules would not prevent gratuitous services being rendered to those who are unable to make remuneration without distressing their families. The people in general have seen the price of things go up so high in this city. About everything has gone up except wages. Those who work in mills and shops say that it is about time wages were raised in order to meet this extra cost not alone of living but of being sick.

At New London Encampment.
Willimantic sent a large delegation to New London Friday to attend the state department encampment of the United Spanish War Veterans. Among those who went were: Department Commander Frank P. Fenton, Department Adjutant Robert O. Snow, Department Quartermaster William R. Hargraves, Capt. J. H. Paulsen, James Cochrane, Timothy McNamara, Thomas Joyce, Frank Teevan, Merritt Welch, Michael Cronan, Timothy Quinn, Herbert S. Brown, Lawrence Haggerty, James Lynch, Thomas Moriarty, John S. Daley.

Local People at Pleasure Beach.
Pleasure beach, Waterford, attracts many Willimantic people. A number of residents have cottages there. This summer, as usual, there are many persons from this city, and each day some one leaves here for the resort. Among those there at present are Mr. and Mrs. Frank P. Bradway, Mr. and Mrs. William S. Johnson, Mr. and Mrs. G. H. Hughes, May M. and Annie T. Grady, J. O. Blanchette and family, the family of George M. Harrington, the family of Frank M. Lincoln.

Goes to Europe with \$200 Gift from Employers.

Charles I. Anderson of this city said this morning from New York on the Arabic for a vacation of several weeks to be spent in Europe. He will first visit Sweden, his native country, and see his mother, whom he has not seen for twelve years. Then he will visit England, Scotland, Ireland and France. Mr. Anderson is the New England agent of a distillery in Louisville, Ky., which place he has held for eight years. A few days ago he received a letter from the company, by which he was informed that a check for \$200 as "pin money," to be used by him in enjoying himself while on vacation. The gift was deeply appreciated by Mr. Anderson.

Protestant Syrians May Build Church.
There will be a meeting of the Protestant Syrians of this city on Sunday to discuss the matter of erecting a church of their own and secure the medical fraternity. Catholicism being a constitutional disease, requires a constitutional cure. The plan has been under consideration for some time and some Syrians feel that they might be able to erect a small church and have religious services in their own language and according to the ritual used in their own country.

\$100 Reward \$100.
The readers of this paper will be pleased to learn that there is at least one cure for the disease that is called Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional cure. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. It cures catarrh of the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have made much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

PROMPT INVESTIGATION OF THE WILEY CHARGES.
House Committee on Expenditures Takes the Matter Up.

Washington, July 14.—Immediate investigation of the charges made in the recommendation by the board of personnel of the department of agriculture which Dr. Harvey W. Wiley, chief of the chemistry bureau, be permitted to resign from the government service was decided upon by the house committee on expenditures in the department of agriculture today.

Chairman Moss of the committee called at once on Secretary of Agriculture Wilson for all papers and testimony in his possession which had to do with the board's action.

The committee authorized issuance of subpoenas for any persons who in the chairman's opinion should be called on to testify. Public hearings will begin as soon as the papers have been received, which probably will be early next week. Two of the republican members of the committee who are out of the city have been requested to return to Washington.

SACREDNESS OF FAMILY.
Rt. Rev. C. B. Brewster Emphasizes Teachings of Episcopal Church on This Point.

The current issue of the Connecticut Churchman reprints Bishop Brewster's convention sermon, in which he said, regarding the sacredness of the family:

Such an ideal is that of the sacredness of the family, an institution as divine as the church of God. I need not tell you how indelibly this institution is today assailed in the name of individual liberty and of social reform; how it is threatened by the facility of divorce; and how wantonly in many flagrant instances the American home has been wrecked by the self-indulgence and the self-will that have defied the binding sanctity of the bonds of marriage, until in these regards our land is a byword for shame among the nations of the earth.

The import of the family to our social and national life is it impossible to overstate. Weakness as are its ties and dishonored as its authority often is today, it yet supplies the sole redeeming influence for many a life, that is only so uplifted from ignominiousness, mean selfishness, and brutal degradation, and bound in saving relations to other lives. Where should we be without it? Society and the nation cannot afford to let this institution go. In the fight to maintain it all the things to be valued is at stake.

The church must loyally stand for the indissoluble integrity of marriage and the home it creates. The church's ministers ought solicitude to impress upon all, but particularly upon young men and young women, a solemn sense of the sacredness of matrimony as an estate to be entered into only with reverence and godly fear. There is a diligent labor for the recovery of standards of selflessness, of sober restraint, of self denial, of loyalty, of reverence, which alone can preserve the family as the social unit for coming generations of men.

GOOD NEWS

Ladies Everywhere

are glad to know of the wonderful benefit that Viburn-O-Gin has always been to sufferers of their sex.

Thousands of ladies spread the good news among their neighbors and friends.

Others write letters for publication, thus suffering sisters, unknown to them, may learn about it in the newspapers.

As the good work goes on, Viburn-O-Gin is a purely vegetable compound, containing no harmful properties, is actively specific in its curative action on the womanly organs and functions.

To young and old it is highly recommended for the treatment of all forms of female troubles.

Testimonial

"I had been a great sufferer for years before learning of Viburn-O-Gin. I had misplacement, fainting spells, constant headache, and other female troubles, which made me feel very weak. I tried different doctors, but none gave me relief, so I took Viburn-O-Gin and it relieved me so much that I want you to spread the news of what it has done for me. It certainly will do as much for other sick women."
